

AE 321

Safety horizontal webbing

EN 795/B, CEN/TS 16415

Horizontal anchoring line (horizontal safety line) with adjustable length. A transport bag is included with the device. The device is used for security when performing work that requires frequent horizontal movement. The AE 321 rope complies with the EN 795:2012 type B (portable equipment anchoring points) and CEN/TS 16415:2013/B norms. The AE 321 is designed to secure 1 to 3 people simultaneously. It is compatible with the EN 354/355 and EN 353-2, EN 360 kits. Snap fasteners which meet 14.5kN load requirements can be used as intermediate points.

SPECIAL FEATURES

Suitable for explosion-hazard zones

Protection for max. 3 users

PARAMETERS

Model	AZ 011	Thickness	2 mm
Model 2	AZ 011	ADJUSTER	
Intermediate carabiner	AZ 011	Material	galvanized steel
TAPE		Max. number of users	3
Material	polyester		
Width	35 mm
