

Fork Mounted Yard Scraper (FMYS)

The forklift yard scraper is designed for pushing waste etc. to a point where it can be collected up. Angled ends to the forklift blade prevent rubbish from spilling out past the sides. Ideal for clearing yards, warehouse floors, metal reprocessing area, and foundry floors etc. Castors fitted as standard.

| Model Ref | Width Cleared (mm) | Max Fork Size (mm) | Fork Spread (mm) | Weight (kg) |
