

BTG Concrete pipe lifting clamps

Working load limit (WLL) 1500 - 3000 kg

The BTG concrete pipe lifting clamps are sold in sets of three, and they come complete with a 3-legged chain sling (the working load limits shown are based on a set of three clamps).

They are designed for the vertical transportation of concrete pipe sections with a diameter of up to 2000mm.

Attachment and removal of the clamps from the pipes is extremely easy due to the simple and straightforward design.

Features

- Solid design
- Safety factor 4:1
- Simple and safe handling
- Large jaw capacity
- For the toughest operating conditions

Product group: I4

INFO

For concrete pipes according to DIN 4034.
